

Las  
Rozas  
Innova **hub**

**A platform to connect the ecosystem and  
make grow your innovative project in Las  
Rozas**

# Las Rozas Innova Hub

Las Rozas Innova Hub offers a shared work space of more than 2,000 square meters which are available to entrepreneurs. It is adapted to the needs of the teams. Moreover, it counts with the services and support required to make grow and consolidate their innovative projects

A vertical bar on the left side of the slide, consisting of a black upper section and a teal lower section.

**What do we offer?**

# Services

**Solution validation programmes** in real environments

**Investment forums** to promote startups in their different maturity stages

**Training** in specific skills

**Experts** to help startups in key aspects.

**Community** to connect the startups and create an innovative network full of opportunities

**Events** to connect the entire network business that belongs to Las Rozas and nearby cities

**Perks and support from** technological partners

# Services

## Programmes

We support entrepreneurs in the earliest stages through the programmes

**Early Adopters:** we help startups in the process of checking their technology and their product with real clients.

**Venture Client:** we help startups in the process of testing and validating their solutions that solve different business challenges

## Funds

Depending on the startup stage, the financing needs, the type of funds and how they will be applied. Three alternatives:

**Business Angels and VCs database:** we identify key people to contact with in order to provide investment opportunities (dealflow)

**Investment Forums:** they are open for the participation of all kind of startups, we evaluate them and choose six. Our 6 finalists will pitch in front of investors in our Investor's day

# Training

# Services

We train in both technical and management skills for the founders and their teams.

Two types of sessions:

**Knowledge Session:** From 2 to 4 hours that are taught in a theoretical-practical way so that participants acquire knowledge in an easy way

**Inspiration Session:** 1 or 2 hours sessions given by experts in a trendy area or technology.

# Services

## Experts

They are people with an extensive knowledge and experience in a specific area and help solve and develop a need for the startups. They are available to offer a service of 1-3 hours per week to support the progress of these needs.

# Community

# Services

We help fostering synergies among the entrepreneurs and with other kind of companies

**Digital tools:** information and communication tools to centralize interactions and all the Hub services.

**Community meetings:** They are group or individual sessions to discuss services, projects, complaints, suggestions; encourage interaction and detect needs

## Events

# Services

Regular meetings for the entire ecosystem to interact

Events and meetups organized by Las Rozas Innova or by other companies in collaboration with Las Rozas Innova to boost the ecosystem. (Hub users, Technical Communities, Content Collaborating Companies...)

# Perk

# Services
